

FAMILY FRIENDS OF
SCOUTING UNIT
CAMPAIGN

It's hard to put a real dollar figure on the value of Scouting since its true investment return won't be seen for many years, but it does return. For more than 96 years, families have believed in and financially supported the values of Scouting, not only for their own child, but the thousands of other children in other families, for generations to come.

The Friends of Scouting Family Campaign is all about investing in the future values that we want to see returned. Scouting families are great financial supporters and they need to be asked and given the opportunity to make an annual investment.

Presentation Information

A District volunteer or professional would like to make a short 7 to 10 minute educational presentation regarding the Friends of Scouting Family Campaign and how it fits into the bigger picture. During one of the months between February, March & April, all Packs, Troops and Crews are asked to schedule a unit presentation. This will provide the greatest opportunity for everyone to hear and see the Scouting story, which is much more than one would imagine. Please help your District schedule a unit presentation by providing the necessary information.

F.O.S. Unit Representative: _____ Unit #: _____
