Tour Plan
Leader Agreement

Effective March 1, 2011 the Boy Scouts of America, has replaced the Tour Permit (local, national, and international) with a new Tour Plan. This two sheet document is the only form necessary for activities or events after March 1st.

While the Tour Plan may not be necessary I am aware that the rules and regulations put forth in the most current Guide for Safe Scouting (available at www.scouting.org) must be applied to all activities and events.

Whether or not a Tour Plan was used, a copy of the unit's First Aid Log will be turned in to the Scout Shop within 7 business days for any injury that occurred during the activity or event.
